

Add users to your zipForm Broker Edition account, view the number of users in the account, and view how many seats are available in your account following the steps in this guide.

zipForm[®] Plus: Broker Edition – Add a New User

Office Information

1. Multiple Offices:

- If your brokerage has multiple offices, you will need to assign the user to an office.
 Follow the steps below to properly assign an office location.
- If your brokerage does not have multiple offices, then this tab will default to the main office.

2. Check the box in the left column next to the user's office location.

NOTE: The checkbox next to the "Corporate" office at the top of the list will always remain checked.

3. Click the **radio button** in the right column next to the same office to ensure that this office location shows in their profile *and* in the footer on real estate forms.

NOTE: The office information is maintained solely by the Broker and/or Admins. Agents cannot edit their office information when using a zipForm brokerage account.

4. Click A the bottom of the window to continue.

Libraries

1. Check the box in the left column next to each library you'd like the user to access.

IMPORTANT: Libraries for specific

Associations can only be assigned to members of that Association.

Next →

2. Click

at the bottom of the window

Permissions

1. Check the box for the permissions in each section that you'd like the user to have.

2. Click A at the bottom of the window to continue.

Settings (optional)

These settings are editable by the agent, however, you may edit them as well. Even if you do not edit these settings, you must access this screen in order to save the user's profile.

1. Choose the default signing service and turn on/off system notifications.
